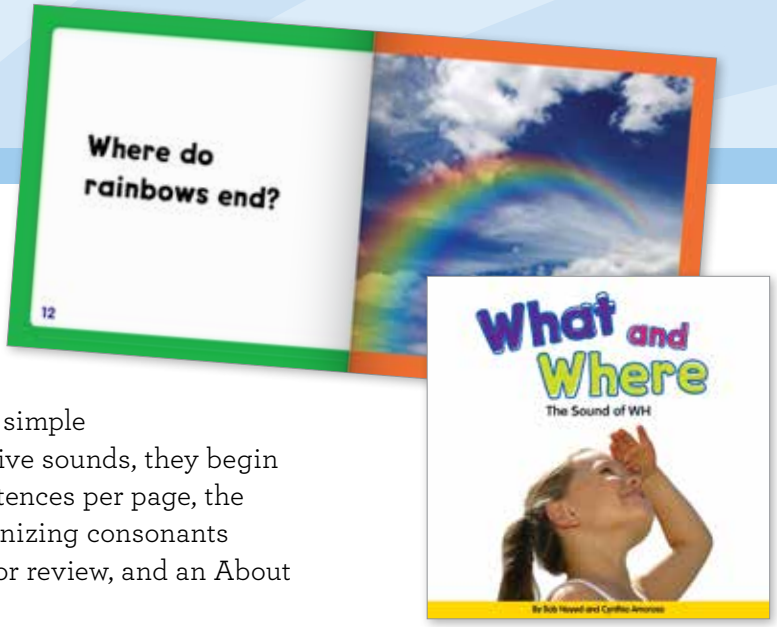
Blends



Developed by a team of renowned experts and described by critics as leading the field, these charming books entice developing readers to learn blend sounds by incorporating full-color photographs and a fun, fresh design. The pictures provide clues to the simple words on the page, so when students hear the repetitive sounds, they begin to associate sounds with letters. With one or two sentences per page, the clean format builds new readers' confidence in recognizing consonants blends. A note to parents and educators, a word list for review, and an About the Author section are included.
