- 12 Powerful Motors
- 14 Inside the Cab
- 16 Wheels or Tracks
- 18 In the Bucket
- 20 Drive On
- 22 Keeping Safe
- 24 Key Words

3

Tractors
are big
machines.

They make work
easier for farmers.

There are many kinds of tractors.

Others help farmers pick fruit.

**Tractors can pull
tillers, plows, and
hay balers.**

**These are machines that
do different farm jobs.**

**Tractors come
in different sizes.**

**The biggest tractor is 25 feet wide.
It weighs 48 tons.**

**That is more than half of what
a space shuttle weighs.**

**Tractors have
big, powerful motors.**

12

**These motors may be as
powerful as 40 horses.**

13

Tractors have a place near
the back called a cab.

Cab

This is where
the driver sits.

Tractors are made for different kinds of land.

16

Other tractors have tracks.

Wheels

Most tractors have wheels.

Tracks

17

**Some tractors have
a bucket on the front.**

**Farmers use these tractors
to move hay from one
place to another.**

**Some farm tractors
drive themselves.**

**Computers help
to steer the tractor
and keep it on track.**

Tractors can be
very dangerous.

They are big,
heavy machines.

People should always be
careful around tractors.

KEY WORDS

Research has shown that as much as 65 percent of all written material published in English is made up of 300 words. These 300 words cannot be taught using pictures or learned by sounding them out. They must be recognized by sight. This book contains 55 common sight words to help young readers improve their reading fluency and comprehension. This book also teaches young readers several important content words. These words are paired with pictures to aid in learning and improve understanding.
